⚠️ Correct answers will be available on Feb 8 at 11:59pm.

Score for this attempt: **28** out of 30

Submitted Feb 3 at 10:02pm

This attempt took 5 minutes.

Question 1

1 / 1 pts

A formally chartered group responsible for reviewing, evaluating, approving, delaying, or rejecting changes to the project, and for recording and communicating such decisions.

- ☐ Communication models
- ☒ Change control board (CCB)
- ☐ Data gathering techniques
- ☐ Milestone

Question 2

1 / 1 pts

Explicit knowledge

An actual condition that is different from the expected condition that is contained in the baseline plan.

Those processes performed to complete the work defined in the project management plan to satisfy the project requirements.

The process of using existing knowledge and creating new knowledge to achieve the project's objectives and contribute to organizational learning.

Knowledge that can be codified using symbols such as words, numbers, and pictures.

Question 3

1 / 1 pts

Quality report

A current condition or situation that may have an impact on the project objectives.

A project document that includes quality management issues, recommendations for corrective actions, and a summary of findings from quality control activities and may include recommendations for process, project, and product improvements.

A limiting factor that affects the execution of a project, program, portfolio, or process.

- ☐ A store of historical information about lessons learned in projects.

Question 4**1 / 1 pts**

Any unique and verifiable product, result, or capability to perform a service that is required to be produced to complete a process, phase, or project.

- ☐ Alternative analysis
- ☐ Start date
- ☐ Portfolio management
- ☒ Deliverable

Question 5**1 / 1 pts**

Change control board (CCB)

- ☐ A review at the end of a phase in which a decision is made to continue to the next phase, to continue with modification, or to end a project or program.
- ☒ A formally chartered group responsible for reviewing, evaluating, approving, delaying, or rejecting changes to the project, and for recording and communicating such decisions.
- ☐ A fixed date imposed on a schedule activity or schedule milestone, usually in the form of a "start no earlier than" date and a "finish no later than" date.
- ☐ A repository in which outputs of risk management processes are recorded.

Question 6**1 / 1 pts**

The process of finalizing all activities for the project, phase, or contract.

- ☐ Activity duration estimates
- ☒ Close Project or Phase
- ☐ Contingent response strategies
- ☐ Product

Question 7**1 / 1 pts**

Close Project or Phase

- ☒ The process of finalizing all activities for the project, phase, or contract.
- ☐ A hierarchical representation of potential sources of risks.
- ☐ A project document used to record knowledge gained during a project so that it can be used in the current project and entered into the lessons learned repository.
- ☐ A risk response strategy whereby the team acknowledges that a risk is outside of its sphere of influence and shifts the ownership of the risk to a higher level of the organization where it is more effectively managed.

Question 8**1 / 1 pts**

Baseline

An uncertain event or condition that, if it occurs, has a positive or negative effect on one or more project objectives.

The approved version of a work product that can be changed only through formal change control procedures and is used as a basis for comparison to actual results.

A formal or informal approach to elicit information from stakeholders by talking to them directly.

Comparing actual performance with planned performance, analyzing variances, assessing trends to effect process improvements, evaluating possible alternatives, and recommending appropriate corrective action as needed.

Question 9

1 / 1 pts

Collect project performance data, produce performance measures, and report and disseminate performance information.

Path divergence

Risk appetite

Stakeholder engagement plan

Monitor

Question 10**1 / 1 pts****Corrective action**

Establishing connections and relationships with other people from the same or other organizations.

The process of monitoring and recording results of executing the quality management activities to assess performance and ensure the project outputs are complete, correct, and meet customer expectations.

The process of defining, preparing, and coordinating all plan components and consolidating them into an integrated project management plan.

An intentional activity that realigns the performance of the project work with the project management plan.

Question 11**1 / 1 pts****Develop Project Charter**

The process of developing a document that formally authorizes the existence of a project and provides the project manager with the authority to apply organizational resources to project activities.

The process of evaluating scenarios in order to predict their effect on project objectives.

- ☐ A grid that shows the project resources assigned to each work package.

☐ The process of reviewing all change requests, then approving changes and managing changes to deliverables, organizational process assets, project documents, and the project management plan, and then communicating the decisions.

Question 12

1 / 1 pts

Procurement documents

☐ A risk response strategy whereby the team acknowledges that a risk is outside of its sphere of influence and shifts the ownership of the risk to a higher level of the organization where it is more effectively managed.

☐ A calendar that identifies the working days and shifts upon which each specific resource is available.

☒ The documents utilized in bid and proposal activities, which include the buyer's Invitation for bid, the invitation for negotiations, the request for information, the request for quotation, the request for proposal, and the seller's responses.

☐ A modification to any deliverable, project management plan component, or project document that is not under formal change control.

Question 13

1 / 1 pts

Monitor and Control Project Work

- ☐ A hierarchical representation of resources by category and type.
- ☐ A fixed date imposed on a schedule activity or schedule milestone, usually in the form of a "start no earlier than" and a "finish no later than" date.
- ☐ An intentional activity that realigns the performance of the project work with the project management plan.
- ☒ The process of tracking, reviewing, and reporting overall progress to meet the performance objectives defined in the project management plan.

Question 14**1 / 1 pts**

Issue log

- ☒ A project document where information about issues is recorded and monitored.
- ☐ The process of developing a detailed description of the project and product.
- ☐ An artifact that is produced and quantifiable and can be either an end item in itself or a component item. Additional words for products are material and goods.
- ☐ Any activity on the critical path in a project schedule.

Question 15**1 / 1 pts**

Techniques used to select a course of action from different alternatives.

- ☐ Service level agreement (SLA)
- ☐ Business value
- ☐ Tacit knowledge
- ☒ Decision-making techniques

Question 16

1 / 1 pts

Supporting documentation outlining the details used in establishing project estimates such as assumptions, constraints, level of detail, ranges, and confidence levels.

- ☐ Develop Project Management Plan
- ☐ Resource histogram
- ☐ Claims administration
- ☒ Basis of estimates

Question 17

1 / 1 pts

A component of the project or program management plan that describes how applicable policies, procedures, and guidelines will be implemented to achieve the quality objectives.

- ☐ Bar chart

☐ Manage Quality

☒ Quality management plan

☐ Procurement management plan

Question 18

1 / 1 pts

The process of tracking, reviewing, and reporting overall progress to meet the performance objectives defined in the project management plan.

☐ Critical path activity

☐ Management reserves

☒ Monitor and Control Project Work

☐ Cost-benefit analysis

Incorrect

Question 19

0 / 1 pts

The process of leading and performing the work defined in the project management plan and implementing approved changes to achieve the project's objectives.

☐ Estimate to complete (ETC)

☒ Direct and Manage Project Work

☐ Risk mitigation

☐ Configuration management plan

Question 20**1 / 1 pts**

The documented results of control quality activities.

- ☒ Quality control measurements
- ☐ Defect repair
- ☐ Adaptive life cycle
- ☐ Invitation for bid (IFB)

Question 21**1 / 1 pts**

Unanimity

- ☐
The time in calendar units between the start and finish of a schedule activity.
- ☐
A condition or capability that will be used to assess conformance by validating the acceptability of an attribute for the quality of a result.
- ☐
The uncontrolled expansion to product or project scope without adjustments to time, cost, and resources.
- ☒ Agreement by everyone in the group on a single course of action.

Question 22**1 / 1 pts**

Verified deliverables

Completed project deliverables that have been checked and confirmed for correctness through the Control Quality process.

Products, results, or capabilities produced by a project and validated by the project customer or sponsors as meeting their specified acceptance criteria.

The process of formalizing acceptance of the completed project deliverables.

Represents profit as a component of compensation to a seller.

Question 23**1 / 1 pts**

A technique that enhances brainstorming with a voting process used to rank the most useful ideas for further brainstorming or for prioritization.

Activity attributes

Work package

Grade

Nominal group technique

Incorrect**Question 24****0 / 1 pts**

The process of subdividing project deliverables and project work into smaller, more manageable components.

Project schedule

- ☐ Standard
- ☐ Planning package
- ☐ Create WBS

Question 25**1 / 1 pts****Inspection**

- ☐ An iterative planning technique in which the work to be accomplished in the near term is planned in detail, while the work in the future is planned at a higher level.
- ☒ Examination of a work product to determine whether it conforms to documented standards.
- ☐ The meetings with prospective sellers prior to the preparation of a bid or proposal to ensure all prospective vendors have a clear and common understanding of the procurement. Also known as contractor conferences, vendor conferences, or pre-bid conferences.
- ☐ Written sets of questions designed to quickly accumulate information from a large number of respondents.

Question 26**1 / 1 pts****Nominal group technique**

- ☐ Represents profit as a component of compensation to a seller.
- ☐ The assurance that a product, service, or result meets the needs of the customer and other identified stakeholders.
- ☒ A technique that enhances brainstorming with a voting process used to rank the most useful ideas for further brainstorming or for prioritization.
- ☐ A project document including the identification, assessment, and classification of project stakeholders.

Question 27**1 / 1 pts**

A set of conditions that is required to be met before deliverables are accepted.

- ☐ Create WBS
- ☒ Acceptance criteria
- ☐ Specification limits
- ☐ Estimate activity durations

Question 28**1 / 1 pts**

Validation

- ☒ The assurance that a product, service, or result meets the needs of the

customer and other identified stakeholders.

A current condition or situation that may have an impact on the project objectives.

The uncontrolled expansion to product or project scope without adjustments to time, cost, and resources.

A condition or capability that will be used to assess conformance by validating the acceptability of an attribute for the quality of a result.

Question 29

1 / 1 pts

Work package

Examination of a work product to determine whether it conforms to documented standards.

The work defined at the lowest level of the work breakdown structure for which cost and duration are estimated and managed.

The assurance that a product, service, or result meets the needs of the customer and other identified stakeholders. Contrast with verification.

A component of the resource management plan that describes when and how team members will be acquired and how long they will be needed.

Question 30**1 / 1 pts****Work breakdown structure (WBS)**

A hierarchical decomposition of the total scope of work to be carried out by the project team to accomplish the project objectives and create the required deliverables.

A set of conditions that is required to be met before deliverables are accepted.

The process of developing a detailed description of the project and product.

The process of reviewing proposals provided by suppliers to support contract award decisions.
